

Week of April 29th

Monday, 4/29/24

1. Today in class we read chapter 1 and chapter 2 in *Ender's Game*. If you were out, do that. :-)

Tuesday, 4/30/24

1. Today in class we did quite a bit. We started with a quick rehash of chapters 1 and 2 in *Ender's Game*, and then we read chapter 3 together.
2. The homework for tonight is to read chapter 4 and there will be a quiz based on that reading on your block day. As you read, look up words you don't know! They could be important and they might make great quiz questions.
3. After that we got into the best part of experiencing this novel - being in an Ender army! For those of you that were out, you'll see what it's all about when you return to school.

Wednesday, 5/1/24

1. We did a lot today! We started with the chapter 4 Ender quiz. If you were out, see me when you return so you can take it.
2. After that we did an Ender game. It was tough...everyone had to find 44 nouns on a sheet and decipher a message from it. There was a lot complaining... :-P
3. We moved on from that game into chapter 5 of the novel - a chapter called "Games". It was really good...a great introduction to life at the Battle School. *Ender's isolation was over. The war was just beginning.* Soooooooo GOOD!
4. Then we played *another* battle! This time it was the Nerf gun target shooting game. I'm telling you, if you want someone to battle with, you definitely want to choose **Beckett Sullivan**! He nailed the light switch panel (7,000 points!) *twice* in one game! That's virtually impossible to do! Great shooting, private Sullivan!
5. After target practice, everyone dove into chapter 6. Have that read by the next time I see you. Make sure you stay current with the reading. There will be quizzes almost every day.

Thursday, 5/2/24

1. Rinse and repeat from yesterday. :-)

Friday, 5/3/24

1. Today we did TWO Ender challenges (a maze and a Gimkit), and then we discussed the awesome chapter 6 content. After that, everyone went to Classroom to do the assignment posted there. If you weren't here today, do half of that assignment at home. (Figure 5 paragraphs - three details, intro, conclusion) We'll complete the second half on Monday in class.
2. **Crest makers! Don't forget your final crests are due in class on Monday! The ones I have received so far are BEAUTIFUL, so do your best work!**
